Hi , in this video we are going to be building this ==responsive== login page from scratch using ==HTML5 and CSS3.==

This video will be longer than ==my usual videos== because I'm going to explaining every step.

I will be using ==Vscode,== but you can follow along using HTML Editor on PC or mobile.

==Don't forget to like this video , subscribe, and say hi in the comments down below.==

Let's get ==started.==

The first thing to do is grab a stock image with a clear background and interesting visuals.

We'll be including this in our login page. The ==colours== of the login page will be determined by this image.

Once you have your image Create a basic ==HTML5 project== and let's begin coding.
